REASONS FOR ALLOWANCE

1. Claims 1-17 are allowed in light of applicant's arguments and amendment. The following is a statement of the examiner's reasons for allowance. The present invention relates to a particle-optical lens arrangement and a method employing such a lens arrangement. Regarding claims 1 and 13, prior art fails to disclose a deflection lens device for providing a field having a deflecting effect on the imaging particles in a region of the intermediate image area. Therefore, the claimed invention is considered to be in condition for allowance as being novel and non-obvious over the prior art.
2. The prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 USC 102 or 103 would be improper. The claimed invention is therefore considered to be in condition for allowance as being novel and non-obvious over prior art. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
